Ridwat Okunlola

Full Stack MERN Developer | Front-end Specialist | Back-end Developer | Database Manager | Data Analyst | Python Expert

📱 08106114218 | ✉ okunlolaridwanat@gmail.com | [Github](#)

Professional Summary

Ridwat is a seasoned full-stack developer specializing in frontend, backend, and database management, with over six years of experience in software development and system architecture. Skilled in MERN stack, JavaScript, Python, MongoDB, and SQL, she excels in creating responsive user interfaces, developing robust server-side applications, and optimizing database systems for high-performance and scalable solutions.

Experience

Scale AI   Remote
Prompt Engineer   *02/2024 - Present*

Served as an AI Prompt Engineer at Scale AI, I designed and optimized prompt engineering frameworks, integrating advanced AI models to boost accuracy and drive substantial improvements in system performance.

SwiftPay   Remote
Full Stack Web Developer   *06/2022 - 02/2024*

As a Full Stack Web Developer at SwiftPay, I developed scalable web applications, enhancing user experiences and back-end efficiency. Utilizing modern frameworks and databases, I ensured reliability, optimized performance, and delivered seamless functionality for real-world applications.

DYA   Lagos, Nigeria
Data Analyst   *01/2022 - 07/2023*

As a Data Analyst at DYA, I analyzed complex datasets to uncover insights, optimize processes, and drive decision-making. By leveraging advanced statistical techniques and tools, I ensured data accuracy and delivered actionable recommendations for real-world business challenges.

IceyTech   Remote
Software Developer   *03/2019 - 02/2022*

As a Software Developer at IceyTech, I built scalable solutions, optimized system performance, and ensured functionality, leveraging modern programming techniques to deliver innovative applications for diverse operational needs.

Education

University of Ilorin
B.Sc Computer Science   *09/2015 - 07/2019*

Coursera   Remote
MERN Stack Development   *04/2023 - 08/2023*

This credential earner completed a MERN Stack Development course on Coursera, gaining expertise in MongoDB, Express.js, React, and Node.js to build scalable, efficient, and user-friendly full-stack web applications.

SQI College of ICT
Advanced Full Stack Development   *01/2023 - 12/2023*

This credential earner completed an Advanced Full Stack Development course at SQI College of ICT, mastering modern frameworks and tools to design and develop scalable, efficient, and user-friendly full-stack web applications.

IBM

Full-Stack JavaScript Developer   *01/2024 - 03/2024*

This credential earner worked as a Full Stack JavaScript Developer at IBM, utilizing modern frameworks and tools to design, develop, and optimize scalable, efficient, and user-friendly web applications for diverse business needs.

Udemy

The Ultimate Front-End Web Developer   *04/2024 - 07/2024*

This credential earner completed "The Ultimate Front-End Web Developer" course on Udemy, gaining expertise in modern front-end technologies and tools to design and build responsive, user-friendly, and efficient web interfaces for diverse applications.

Skills

- Python
- React
- Artificial Intelligence (AI)
- HTML5
- PostgreSQL
- Bootstrap
- Responsive Web Design

- JavaScript
- Node (ExpressJs)
- Data Analytics
- Tailwind CSS
- MongoDB
- Next.Js
- Media Query

Courses

Python Programming Masterclass

Udemy   *03/2024 - 08/2024*

Activities

Mind Talk   **remote**

SQI College of ICT   *01/2023 - 09/2024*

Participated in monthly mind talk meeting geared towards stimulating coders and developers onto the next level in solving real-world problems.

Hobbies

Coding and Research.
